

Md Sifat Hossain

+880-1828-102576 sifattb910@gmail.com LinkedIn GitHub

Education

University of Dhaka

January 2020- February 2025

Bachelor of Science in Computer Science and Engineering

- Relevant Coursework:** Data Structures and Algorithms (C++), Probability & statistics, Object Oriented Programming(Java), Software Design Pattern(Java), Artificial Intelligence(Python)

Achievements

- Competitive Programming Platforms**(Solved 1000+ problems): **Codeforces(max.1603(Expert))** **CodeChef(4*)** **AtCoder**
- Meta Hacker Cup 2024:** Advanced to **Round 2**, ranked **2166th** globally (Round 1: **2501st**).
- Samsung R&D BD Coding Contest 2024:** Ranked **55th** out of **908 participants** in Round 1 and advanced to Final Round.
- BUET Inter-University Programming Contest 2023:** Secured **5th place** among **102 teams** from different universities.
- ICPC Dhaka Regional Onsite Contest:**
 - * **2023:** Ranked **35th** out of **220+ teams**.
 - * **2024:** Ranked **49th** out of **309 teams**.
- NCPC 2023:** Placed **44th** among **198 teams**.

Experience

Therap Services LLC

April 2025 – Present

Software Engineer

Dhaka, Bangladesh

- Contributed to the development and maintenance of Therap's core SaaS platform, an industry-leading electronic health record (EHR) solution used by service organizations across 50 US states and internationally.
- Participated in the design and implementation of scalable and secure features for the Therap SaaS platform, focused on optimizing service delivery and information exchange.
- Managed infrastructure provisioning using **Infrastructure as Code (IaC)** with **Terraform** and **AWS CloudFormation**, ensuring consistent deployments across multiple environments.
- Configured and maintained monitoring systems using **CloudWatch** and automated deployment processes, improving system reliability and reducing downtime.

Turing

July 2025 – December 2025

Software Engineer & Pod Lead

Remote

- Led a team of 10 engineers to do RLHF (Reinforcement Learning with Human Feedback) data creation initiatives, managing dataset quality and consistency for AI model training.
- Supervised and coordinated cross-functional team activities to meet project targets, ensuring timely delivery of high-quality training data.

Brainwave Matrix Solutions

August 2024 – September 2024

AI/Machine Learning Intern

Remote, India

- Developed a fraud detection model using anomaly detection and supervised learning techniques, achieving **85% precision with imbalanced datasets**.
- Automated model training and deployment pipeline using **Docker** containers and **Jenkins**, enabling continuous integration of ML models.

Zeroxa DT

March 2023 – June 2024

Software Engineer (Part-time)

Remote, London, UK

- Led the development of **5+ client websites**, collaborating with cross-functional teams to deliver high-quality results.
- Delivered scalable, high-performing web applications using **React.js** and **FastAPI**, reducing average page load time.
- Implemented **CI/CD pipelines** with automated testing and deployment workflows, accelerating release cycles and ensuring code quality across production environments.
- Managed cloud infrastructure on **AWS**, utilizing **EC2**, **S3**, and **RDS** to optimize application performance and cost efficiency.

Projects

Smart Event Ticketing System

Java, Spring MVC, Hibernate/JPA, PostgreSQL, JSP

- Architected a comprehensive **event management platform** with multi-role authentication system enabling organizers, sponsors, and attendees to manage events, tickets, and bookings efficiently.
- Engineered **dynamic search** capabilities with real-time event filtering and seamless user experience through asynchronous data retrieval.
- Implemented **transactional booking system** with pessimistic locking mechanisms to ensure data consistency and prevent concurrent booking conflicts.

JobGenie

React.js, FastAPI, MongoDB

- Developed a **job searching platform** enabling users to generate tailored CVs and match personalized job opportunities.
- Implemented job scraping functionality to fetch and integrate relevant listings, enhancing platform utility.

OyeAmigo

Kotlin, Android SDK

- Built a **social media app** connecting users with similar personalities based on shared preferences.

- Optimized app performance by leveraging Kotlin's null safety features, reducing crashes.

TikTok Scraper

Selenium, Requests, BeautifulSoup, Python, SQLite3

- Engineered a scraper to extract video descriptions and author metadata for specified keywords and tags, enabling data analysis for **5000+ videos**.
- Utilized Selenium for dynamic content loading, BeautifulSoup for parsing, and SQLite3 for storing and querying scraped data efficiently.

Publications

- **Md Sifat Hossain**, Anika Tabassum, Md. Fahim Arefin, Tarannum Shaila Zaman.
"LLM-ProS: Analyzing Large Language Models' Performance in Competitive Problem Solving"
Presented at **LLM4Code 2025 Workshop, ICSE 2025 - 47th International Conference on Software Engineering**, Ottawa, Canada.
- Anika Tabassum, **Md Sifat Hossain**, Md. Fahim Arefin, Tariqul Islam, Tarannum Shaila Zaman.
"A-ProS: Towards Reliable Autonomous Programming Through Multi-Model Feedback"
Under review (2nd phase) at **ACM Transactions on Software Engineering and Methodology (TOSEM)**, 2026.

Technical Skills

Languages: Python, JavaScript, Java, C++, Kotlin

Technologies: FastAPI, React.js, MongoDB, Selenium, Git, Spring, Spring Boot, Hibernate, JSP, PostgreSQL, JUnit5, Nginx, Docker, Bash, Linux

AI Tools: Claude Code, Cursor, ChatGPT, GitHub Copilot
